What Our People Say

Shrish Talwar
Program Manager - BI & BA Practice Lead

During the course of my journey with Damco, I've got ample opportunities to build teams, launch new projects, handle challenges, lead, and grow. People are accessible here, I just had to try and was able to get what I was looking for. At Damco, it is not just your role that motivates you. It is also the support you get from the workplace and your team, to excel in the pursuit of career aspirations.

Aprit Gupta
Engagement Manager

I have spent my whole career in Damco. There has always been a new challenge or new opportunity here. I started as a Developer then shifted to QA and now leading the team. It's like Learn, Deliver & Grow. The clients that I work for are global. So it's constantly interesting and never the same.

Robin Madan
Project Lead

The most remarkable thing about my association with Damco has been 'Good People'. I have been in different teams in India and abroad, worked under exciting and challenging projects for world-class clients. But, it is the trust that keeps me motivated to perform and deliver. I am truly glad to be a part of an organization where everyone has a voice

Neelam Bhatt
IT Project Manager

I will soon be celebrating my 6th anniversary working at Damco and that itself reflects how much it feels like a home. Among numerous rewards of working here, 'easily accessible management' tops my list. I can't recollect even a single occasion when I had to think twice before speaking my mind. The trust Damco places with its employees motivates me the most.
